# MOUNTING SYSTEM

This mounting system is suitable for mounting sensors at any point.

For mounting tubes with a diameter of 12mm, which are available in 200 and 500mm lengths, there are a variety of clamp holders that can be used to secure the tubes stably.

## AY000161 / AY000162 / AY000163

The magnet AY000162 is also available for the foot clamp AY000161 and clamp AY000163, allowing the mounting structure to be easily attached to a magnetic machine part.

## AY000164

The add-on clamp holder AY000164 is equipped with an M6 female thread. Both the illustrated mounting brackets and the already familiar universal holders with ball heads can be attached to it.
