LED lights • Machine and bench lights

LED machine light, 55x300x20mm, white light, 13W, 2000lx, 5000K, 22-28V DC, M12-connector 4-pin, IP67, aluminum + float glass tempered

- / Front screen made of tempered float glass
- / Light color neutral white
- / Increased resistance to cooling lubricants
- / Increased resistance to chip bombardment

Large angle of emitted beam Anodized aluminum housing

These resilient lights offer the optimum combination of brightness, output, design and degree of protection. With 150 lumens per watt and an angle of emitted beam of 120 degrees, they are the right choice when a lot of light is needed. They are resistant to the most common coolants and lubricants and can therefore be used in harsh environments.
