Mastering challenges in food production

Global food production is confronted with a wide variety of challenges and is therefore in a state of constant change. Particularly in view of a growing world population, climate change, but also in exceptional situations such as a global pandemic, it is becoming increasingly important as a systemically relevant industry. As consumer demand is also constantly changing, processes within the food industry must become ever more efficient, while at the same time using resources as sparingly as possible.

ipf electronic offers a range of solutions, some with outstanding features, for all areas of the food industry. We present a selection from our wide range of products here.

Classification

ETIM 8

More

IPF Product Group	006 Print media
packaging dimensions	297 x 210 x 1.1 mm
gross weight	52 g
Customs tariff number	49111090
WEEE number	40951076
Reach-compliant	Yes
RoHS-compliant	Yes

Installation

Mounting / installation may only be carried out by a qualified electrician!

Disposal

WEEE number according to § 6 para. 3 ElektroG: 40951076

Safety warnings
