

LS207022

Fiber optic sensors • Fiber optics plastic fiber barrier

fiber optic barrier, 2m, head: Stainless steel 35long Ø1 Ø2, Light exit Lateral, conductor: Plasticfiber+Plastic, -55-80°C, IP30

Fiber optics in combination with the appropriate fiber optic amplifier function as contactless and wear-free position switches that can also be used in harsh environmental conditions. They detect objects independent of their characteristics (e.g., shape, color, surface structure, material). Because the ends and heads of the fiber optics have small dimensions and the fiber optics are flexible, very elegant solutions can be created for detecting objects in places that are difficult to access. Fiber optics can be used without special precautions in potentially explosive areas and in zones with electrical and/or magnetic fields (high-voltage installations, electrical welding equipment) as their function is not thereby affected. Fiber optics are available in versions for implementing the function as through-beam sensor or diffuse reflection sensor.

Electrical features

Bending section of the sensing head	0 mm
Bending angle of the sensing head	0 °
Short-circuit protection	No
Sensing head length	35 mm
Switching distance	0 - 160 mm
Reverse polarity protection	No

Mechanical features

Type of fiber	Mono
Design	Cylinder plain
Bending radius (flexible)	10 mm
Bending radius (fixed)	4 mm
Sensing head diameter 1	1
Sensing head diameter 2	2
Fiber diameter	1 mm
Light exit diameter	0.75
Fiber optic cable diameter, receiver end	2.2
Fiber optic cable diameter, transmitter end	2.2
Sensing head diameter	1 mm
Number of fibers	2
Length	2000 mm
Degree of protection (IP)	IP30
Sheathing material	Plastic
Fiber optics core material	Plastic
Sensing head material	Stainless steel
Ejection control	Yes
Design of the fiber optic connection	terminal connection
Ambient temperature	-55 - 80 °C

Optical features

Light exit	Lateral
------------	---------

Other features

Feeding technology	Yes
ardTE00_Anwendungen	Stanzwerkzeuge starke Verschmutzung

Classification

ETIM 8	EC002651 Fiber optic sensor/amplifier
--------	---------------------------------------

More

IPF Product Group	151 plastic fibers
packaging dimensions	123 x 77 x 25 mm
gross weight	20 g
Customs tariff number	90011090
WEEE number	40951076
OzDS-compliant	Yes
POP-compliant	Yes
Reach-compliant	Yes
RoHS-compliant	Yes

Extract accessories program

OF500185

sensor optical, color,
32x50x50mm, White light, True
color, Sn: 1-500, 22-26V DC, 2x
PNP/NPN Push-pull, Connector M8
4pin, IP64, Aluminum Anodised,
With fiber optics connection, ΔE
>= 0.5, 60kHz, 3 colors

OL100340

fiber optic-amplifier,
30x70x10mm, 12-24V DC, 1x PNP
NC/NO, Plug-in connection 3pin,
IP40, Plastic, Polarity free red light

OL100341

fiber optic-amplifier,
30x70x10mm, 12-24V DC, 1x PNP
NC/NO, Plug-in connection 3pin,
IP40, Plastic ABS, Blue light

AL000007

accessories fiber optic, Fiber
cutter, barrier, diffuse-reflection
sensor, 13mm high, Cubic,
Stainless steel

You can find further accessories on our homepage

Installation

Mounting / installation may only be carried
out by a qualified electrician!

Disposal

WEEE number according to § 6 para. 3
ElektroG: 40951076

Safety warnings

- / Before initial operation, please make sure to follow all safety instructions that may be provided in the product information.
- / Never use these devices in applications where the safety of a person depends on their functionality.
