

NY000005

Power supplies • Plug-in power supply

DC power supply, Plug-in power supply, 12V, 1.25A, 100-240V AC, Plastic, Stabilized, Output voltage, pulsed

Pulsed power supplies are used to supply electrical systems or system parts with a stabilized DC voltage. Due to the lower copper losses, pulsed power supplies in the lower power range are considerably more efficient than power transformers. Furthermore, they are more compact and are lighter weight than conventional, linear regulated power supplies, which contain a heavy transformer with iron core and cause additional losses in the linear regulator.

Electrical features

Output voltage	12 V
Operating frequency	50 - 60 Hz
Max. input current	0.45 A
Ampacity	1.25 A
Operating voltage (AC 50Hz)	100 - 240 V
Operating voltage (AC 60Hz)	100 - 240 V

Mechanical features

Housing material	Plastic
------------------	---------

Other features

Stabilized	Yes
------------	-----

Classification

ETIM 8	EC002540 DC power supply
--------	--------------------------

More

IPF Product Group	400 power supply units
packaging dimensions	143 x 74 x 74 mm
gross weight	162 g
Customs tariff number	85044083
WEEE number	40951076
Reach-compliant	Yes
RoHS-compliant	Yes

**Installation**

Mounting / installation may only be carried out by a qualified electrician!

**Disposal**

WEEE number according to § 6 para. 3
ElektroG: 40951076

Safety warnings

- / Before initial operation, please make sure to follow all safety instructions that may be provided in the product information.
- / Never use these devices in applications where the safety of a person depends on their functionality.
