

dimensions 53 x 99.5 x 38mm

camera sensor operating distance variable

- ✓ for C-mount lenses
- ✓ integrated flash controller
- ✓ short set-up times because of up to 255 check programs with up to 32 feature checks per sensor
- ✓ simple product change via control inputs, software or web-interface
- ✓ codeable, digital outputs for up to 5 status signals
- ✓ stand-alone solution
- ✓ robust metal housing
- ✓ high ambient light shield
- ✓ process interface

fully integrated camera system contour-based recognition

description

In addition to a range of functions, the contour-based camera sensors of the 'opti-check' series are characterized by speed and a high level of external light shielding.

Possible applications range from classic optical sensors (through-beam sensors and diffuse reflection sensors) through to industrial image processing (computer-supported camera systems).

For tasks that require a variable operating distance or various dimensions and illumination of the lens coverage, we offer the OC53 with a C-mount lens mount.

Through the numerous choices for a lens matched to the application and appropriate illumination (not integrated), this camera sensor is always the first choice when great flexibility is required.

Thanks to the integrated flash controller, external illumination is supplied via the OC53. This makes external flash controllers a thing of the past.

Using the simple user interface, it only takes a few steps to configure the sensor.

From various functional groups (part location, geometry,

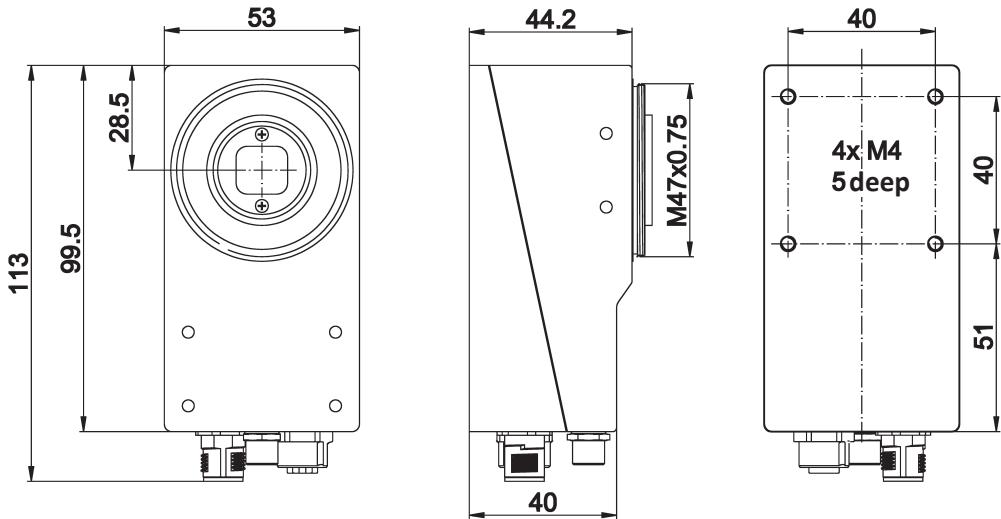

feature comparison, identification) the user can select and combine inspection tasks.

During the manufacturing process, the integrated web interface can be accessed by means of the web browser in order, for example, to carry out subsequent parameterization.

Application areas

- ▶ checking and contour testing of mechanical components, e.g. plastic screws, nuts and metal rings
- ▶ completeness check (e.g. in the case of circuit boards)
- ▶ evaluation of installation positions of mounted assemblies
- ▶ querying of parts and differentiating different grades in packaging (present/incorrect/absent)
- ▶ evaluation of printing (present/quality)
- ▶ position checking of markings and imprints
- ▶ feeding of components (position correct/incorrect)
- ▶ reading of barcodes and their quality
- ▶ OCR recognition of texts

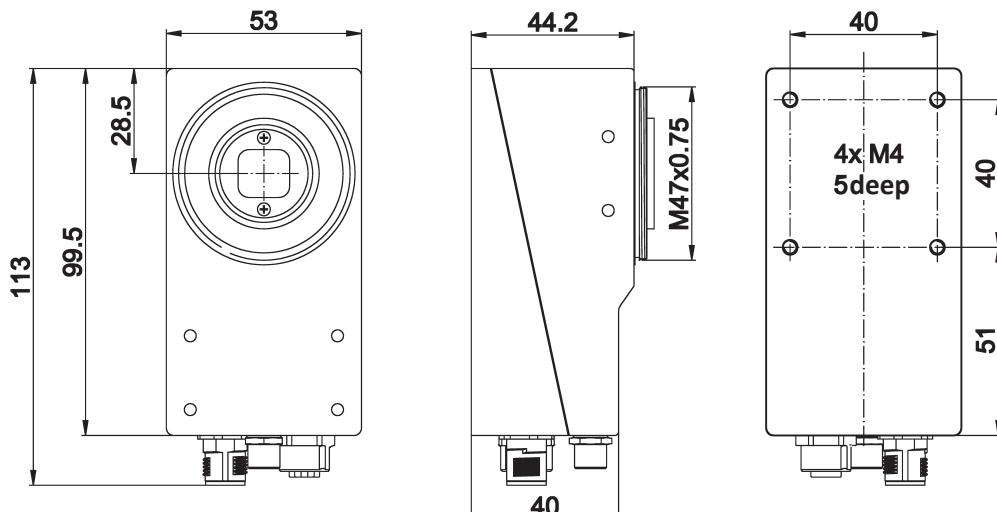

article no.	OC539620	OC539720
resolution	640 x 480px	640 x 480px
image sensor	1/4" CCD	1/4" CCD
measuring time (High Res./ High Speed)	50fps/100fps	50fps/100fps

TECHNICAL DATA

resolution	640 x 480px
operating voltage	18 ... 30V DC
power consumption	typ. 5W
output (process)	pass / fail 1 ... 5, flash sync, alarm, camera ready, output enable
output current (max. load)	100mA per output
input	trigger, job selection, external teach-in, encoder (CH-A, CH-B) 500kHz
input voltage	8 ... 30V DC
setting	via software (included in the scope of delivery)
output (flash controller)	flash controller: 12 or 24V DC permanently, I=800mA 24V or 48V DC pulsed, I=4A flash time: 1ms (duty cycle max. 1:10)
status display	5 x LED
short-circuit protection	+
reverse polarity protection	+
dimensions	53 x 99.5 x 38mm
material (housing)	aluminum
material (optics)	PMMA
temperature (operating)	+5 ... +50°C
humidity (operating)	0 ... 90% non-condensing
degree of protection (EN 60529)	IP67 (with protective lens housing)
vibration resistance	IEC 60068-2-6, IEC 60068-2-64
shock resistance	EN 60068-2-27
connection	supply/signals: M12-connector, 12-pin, flash controller: M8-socket, 4-pin
interface	Ethernet: M12-socket, 4-pin
connection accessories	e.g. VK205C25 (supply/signals) / e.g. VK208F25 (Ethernet)
accessories	protective lens housing: AO000398 (included in the scope of delivery), lens e.g. AO000544 , protective lens extension: AO000399 , illumination e.g. ES350120

A0000398 protective lens housing

A0000399 protective lens extension

ACCESSORIES

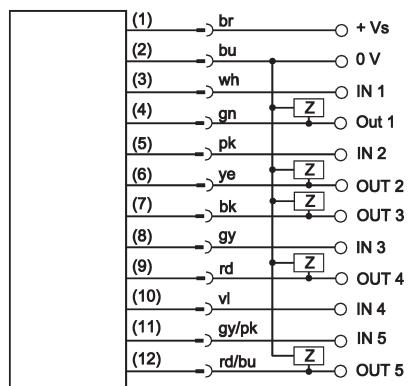

article no.	description
A0000371	adapter plate for installation on tripods
A0000388	mounting plate
A0000389	mounting bracket
A0000398	protective lens housing (included in the scope of delivery)
A0000399	protective lens extension
A0000522	mounting bracket 53 with heat sink for Profinet devices

We will be pleased to supply the matching cable socket for your devices with connector. Please refer to the list in catalog chapter „accessories“ under „cable sockets **ipf-SENSORFLEX®**“ or search our website for „VK“.

Warning: Never use these devices in applications where the safety of a person depends on their functionality.

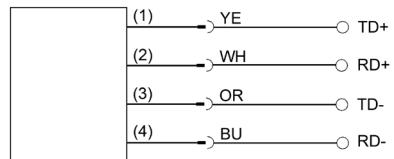

connection

M12-connector, 12-pin, process

**assignment**

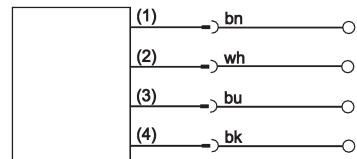

PIN	color	assignment	open cable end
1	brown	PWR	18 ... 30V DC
2	blue	Ground	0V
3	white	IN 1	trigger
4	green	OUT 1	digital output 1
5	pink	IN 2	digital input 2
6	yellow	OUT 2	digital output 2
7	black	OUT 3	digitaler output 3
8	gray	IN 3	digital input 3
9	red	OUT 4	digital output 4
10	violet	IN 4	digital input 4
11	gray/rosa	IN 5	digital input 5
12	rot/blau	OUT 5	digital output 5

M12-socket, 4-pin, Ethernet

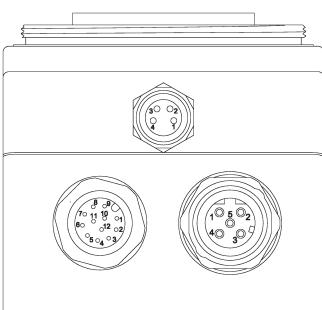

**assignment**

PIN	color	assignment
1	yellow	TD +
2	white	RD +
3	orange	TD -
4	blue	RD -

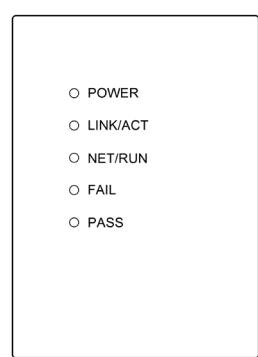

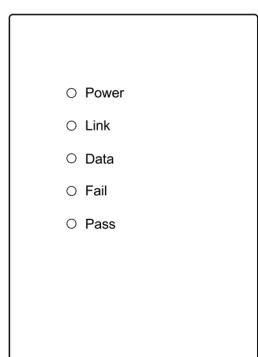

M8-socket, 4-pin, flash controller

**assignment**

PIN	color	assignment
1	brown	24 bzw. 48V DC (pulsed)
2	white	12 bzw. 24V DC (permanent)
3	blue	ground
4	black	flash sync.
